

Getting The Facts

Navis Pack & Ship

Navis Pack & Ship is a commercial custom packaging and shipping franchise business that dominates a niche with few competitors. We work with businesses and residential customers to fulfill their ongoing packing and shipping needs. We specialize in difficult-to-ship items that are too big for a mail and parcel center but too small for a moving company. We ship both domestic and international, and we're experts at packaging and shipping large, fragile, awkward, and valuable items. Our jobs are 99.6% claims-free when we pack the goods being shipped!

Business-to-Business – Not retail – Hours

Retail franchises are demanding. When the 'OPEN' sign says 8am to 9pm, somebody has to be there, even when business is slow. Navis Pack & Ship is a franchise that focuses on the business-to-business market that gives you more personal freedom. You can work flexible hours and have more time to enjoy life. There are no expensive storefronts or messy retail showrooms.

Our Services

We help businesses with everything from packaging and shipping one item to becoming their complete outsourced shipping department. We deliver critical services that aren't readily available from mail and parcel centers, traditional shipping companies or movers. Businesses need Navis Pack & Ship when they don't have internal shipping and packaging capabilities.

Our Customers

- Businesses that need shipping, receiving, storage, custom packing or crating.
- Sellers of furniture, antiques, fine art, electronics and any large, valuable items.
- Businesses handling lease returns of expensive equipment or moving machinery.
- Auction sellers that need to ship large or awkward items.
- Residential customers that need to ship items too large for mail and parcel centers, but too small for moving companies.
